Jane Mwenechanya

Degree studied: MSc Sustainability & Environmental Studies

Year of graduation: 2011
(Awarded MSc with Merit)

Country you came from to study at Strathclyde: Malawi

Why did you choose to study this particular course at Strathclyde University?

I chose to study Environmental Studies because the course is interdisciplinary in nature. The many electives have enabled me to acquire diverse knowledge on environmental sustainability issues by combining both the scientific and social aspect in dealing with the environmental problems.

What did you particularly enjoy about the MSc Sustainability & Environmental Studies course?

Coming from Malawi and being in a class of students with a wide range of backgrounds has allowed me to learn about how environmental problems are dealt with in different sectors.

Staff in the David Livingstone Centre for Sustainability (within the Department of Civil Engineering) are friendly, supportive, understanding and experienced. This has enabled me to gain knowledge and skills which will help me progress my career as an environmental scientist.

What else did you enjoy about your time at Strathclyde?

Studying at the University of Strathclyde has been one of my best experiences. The environment is very conducive for learning and Glasgow itself has very friendly people who have made this place my second home.
