

Associate Medical Writer Training Programme

Join a company with a reputation for developing and inspiring its Associate Medical Writers to the very highest of standards.

The initial programme spans 6 months and allows you to work on real projects, with support and mentoring from experienced editorial staff. A combination of thorough briefing, delivering and constructive feedback allows you to develop experience in different therapy areas while working on a wide variety of project types.

In your first six months you will learn about the following core areas through a combination of training sessions, coaching and on the job experience:

1. Medical communications environment including the drug development process
2. Industry guidelines overview, including our own code of conduct
3. Working with clients – confidentiality, excellence in communication
4. Working principles – our processes and procedures
5. McCann Complete Medical orientation – meet our leaders
6. Account team immersion – people, therapy area, overview
7. Working with the wider team
8. Working with software packages
9. Introduction to our Studio and Digital team
10. Maintaining quality – reviewing your own work
11. Developing writing skills
12. Abstracts
13. Posters
14. Slide presentations
15. Manuscripts
16. Meeting reports
17. Newsletter

Become a fully-fledged Medical Writer after gaining the required experience and knowledge, and see your career progress with a company that cares about their employees and provides a career, not just a job.

We are incredibly proud of our people, providing them with an environment that is thriving and challenging, flexible and inclusive; building a company culture where opportunities and success abounds.

This is what some of our recent Associate Medical Writers have had to say about their experiences:

"I started my career in Med Comms as an Associate Writer at McCann Complete Medical nearly a year ago. The work is interesting, exciting and rewarding, with no two days the same, and was exactly the kind of challenge I was looking for when I left the lab behind."

Daniel Binks, CMC, Macclesfield.

"I've really enjoyed my first few months as an Associate Medical Writer with McCann Complete Medical, it's been very exciting to work on such a wide and diverse range of projects and to be in contact with cutting-edge medical research"

Helen Woodroof, Complete HealthVizion, Glasgow.
