

## University of Strathclyde

### May 2026

The action plan has been formed taking into account that all actions will require engagement from the wider staff and student community at all levels of the organisation. Specific oversight and engagement will be co-ordinated as follows:

**Owner:** Education Strategy Committee has responsibility for ensuring and monitoring the progress of the University's TQER Action Plan.

**Leads:** Key roles where action is aligned to area of responsibility, for both academic and professional services leads. 'Lead Student Representative' reflects the terminology of the TQER process, for Strathclyde this is our StrathUnion Vice President Education (to be known as Education President from 2026/27)

**Key Contacts:** Committees, Working Groups or business areas where remits are aligned with action plan item.

Milestones have been defined to reflect where the substantive recommendation will be completed. To support engagement and monitoring of successful enhancement, further associated milestones are defined which reflect the ongoing implementation, monitoring and review, which will be tracked through the ESC committee framework, and reported through Institutional Liaison Meetings and future Self Evaluation Action Plans, as appropriate.
