LLM Professional Legal Practice Induction: TBC

Teaching Begins: Week Commencing 22 September 2025

Locations for the above induction sessions will be confirmed at a later date. For a full list of University key dates, [please visit our website](#).

Compulsory Module

The LLM in Professional Legal Practice is designed as a top-up course for students who have already completed a PG Diploma in Professional Legal Practice. The course consists of one 80-credit compulsory module, M7937 LLM Dissertation in Professional Legal Practice.

There are no formal attendance hours associated with this module; instead, students will complete work on an individual basis, and with the support of their course leader and academic supervisor, to complete the required dissertation output.

Additional details will be made available to you via the LLM Professional Legal Practice course handbook and Myplace page.

Reading Lists

There is no specific list of recommended textbooks for this programme. Rather, students will be expected to develop their own list of readings and other resources in the relevant area of study identified in their initial project proposal. Academic supervisors may be able to guide you in this regard, but it should be emphasized that the dissertation project is intended to be a fully independent piece of research.
