These regulations are to be read in conjunction with the [General Academic Regulations - Postgraduate Taught Degree Programme Level](#).

Admission

1. The General Academic Regulations - Postgraduate Taught Degree Programme Level shall apply subject to the following requirements. Applicants shall possess:
 - i. a first or second class Honours degree from a United Kingdom university; or
 - ii. a qualification deemed by the Head of Department acting on behalf of Senate to be equivalent to (i) above.

Duration of Study

2. The [General Academic Regulations - Postgraduate Taught Degree Programme Level](#) shall apply.

Mode of Study

3. The programmes are available by full-time (on-campus versions only) or part-time study (online versions and MSc Medical Statistics).

Curriculum

4. All students shall undertake an approved curriculum as follows:
 - i. for the Postgraduate Certificate no fewer than 60 credits
 - ii. for the Postgraduate Diploma no fewer than 120 credits
 - iii. for the degree of MSc no fewer than 180 credits including a research project

MSc Applied Statistics on-campus
Compulsory Modules

All of the compulsory modules listed below plus 10 credits from list A

Module Code	Module Title	Level	Credits
MM914	Foundations of Probability and Statistics	5	20
MM916	Data Analytics in R	5	20
MM953	Experimental Design	5	10
MM954	Multivariate Analysis	5	10
MM550	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM550 which cannot be substituted).

List A

Module Code	Module Title	Level	Credits
MM913	Quantitative Risk Analysis	5	10
MM915	Spatial Statistics	5	10

MSc Applied Statistics on-campus
Optional Modules

No fewer than 50 credits excluding those previously chosen from List A

Module Code	Module Title	Level	Credits
MM904	Financial Stochastic Process ¹	5	10
MM905	Financial Econometrics ¹	5	10
MM909	Medical Statistics ²	5	10
MM911	Effective Statistical Consultancy	5	10
MM912	Survey Design and Analysis	5	10
MM913	Quantitative Risk Analysis	5	10
MM915	Spatial Statistics	5	10
MM962	Data Dashboards with RShiny	5	10
MM960	Statistical Machine Learning	5	10

¹Compulsory module for Applied Statistics in Finance.

²Compulsory module for Applied Statistics in Health Sciences.

Not all optional modules on this list will be available in each academic year. Please check your programme handbook for confirmation of which optional modules will run.

With the approval of the Programme Director, students may substitute other Level 5 modules offered by the University up to a maximum of 20 credits.

MSc Applied Statistics in Finance on-campus Compulsory Modules

Students for the 'in Finance' version of the programme take the on-campus compulsory modules listed above for on-campus MSc Applied Statistics plus the following additional compulsory modules.

Module Code	Module Title	Level	Credits
MM904	Financial Stochastic Processes	5	10
MM905	Financial Econometrics	5	10

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM550 which cannot be substituted).

MSc Applied Statistics in Finance on-campus Optional Modules

Students for the 'in Finance' version of the programme should choose no fewer than 30 credits from the table Optional Modules for on-campus MSc Applied Statistics with the exclusion of those already chosen from List A and those being taken as Compulsory modules up to a combined total of 180 credits.

With the approval of the Programme Director, students may substitute other Level 5 optional modules offered by the University for one or more of the modules listed above up to a maximum of 30 credits.

MSc Applied Statistics in Health Sciences on-campus Compulsory Modules

Students for the 'in Health Sciences' version of the programme take the on-campus compulsory modules listed above for on-campus MSc Applied Statistics plus the following additional compulsory modules.

Module Code	Module Title	Level	Credits
MM909	Medical Statistics	5	20

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM550 which cannot be substituted).

MSc Applied Statistics in Health Sciences on-campus

Optional Modules

Students for the 'in Health Sciences' version of the programme should choose no fewer than 30 credits from the table Optional Modules for on-campus MSc Applied Statistics with the exclusion of those chosen from List A up to a combined total of 180 credits.

With the approval of the Programme Director, students may substitute other Level 5 modules offered by the University up to a maximum of 20 credits.

MSc Applied Statistics online

MSc Applied Statistics in Health Sciences online

MSc Applied Statistics in Finance online

MSc Applied Statistics in Data Science online

Compulsory Modules for (September Start, 2 or 3 year durations)

All programmes listed above take all of the compulsory modules in List B plus 10 credits from List C

List B

Module Code	Module Title	Level	Credits
MM922	Foundations of Probability and Statistics	5	20
MM923	Data Analytics in R	5	20
MM971	Multivariate Analysis	5	10

List C

Module Code	Module Title	Level	Credits
MM925	Quantitative Risk Analysis	5	10
MM928	Spatial Statistics	5	10

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM930 which cannot be substituted).

MSc Applied Statistics online

Additional Compulsory Modules for (September Start, 3 year)

In addition to the modules in List B and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
MM970	Experimental Design	5	10
MM930	MSc Project	5	60

MSc Applied Statistics online

Optional Modules for (September Start, 3 year)

No fewer than 50 credits excluding those previously chosen from List C

Module Code	Module Title	Level	Credits
MM956	Financial Stochastic Process (online) ¹	5	10
MM955	Financial Econometrics (online) ¹	5	10
MM927	Medical Statistics ²	5	10
MM929	Effective Statistical Consultancy	5	10
MM926	Survey Design and Analysis	5	10
MM925	Quantitative Risk Analysis	5	10
MM928	Spatial Statistics	5	10
MM961	Data Dashboards with RShiny ³	5	10
CS817	Big Data Tools and Techniques ³	5	10
CS818	Big Data Fundamentals ³	5	10
CS830	Machine Learning for Data Analytics	5	20
MM965	Statistical Machine Learning	5	10
MM968	Deep Learning	5	10
MM970	Experimental Design ^{1,2,4}	5	10

¹Compulsory module for Applied Statistics in Finance.

²Compulsory module for Applied Statistics in Health Sciences.

³Compulsory module for Applied Statistics with Data Science.

⁴Compulsory module for Applied Statistics

Not all optional modules on this list will be available in each academic year. Please check your programme handbook for confirmation of which optional modules will run.

With the approval of the Programme Director, students may substitute other Level 5 optional modules offered by the University up to a maximum of 20 credits.

MSc Applied Statistics online

Additional Compulsory Modules for (September Start, 2 year)

In addition to the modules in List B and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
MM970	Experimental Design	5	10
MM931	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be

substituted subject to approval by the Programme Director (with the exception of MM931 which cannot be substituted).

MSc Applied Statistics online
Optional Modules for (September Start, 2 year programme)

Students for the September start 2 year version of the programme take no fewer than 50 credits from the optional modules listed above for the online MSc Applied Statistics (September Start, 3 year) excluding those previously chosen from List C.

With the approval of the Programme Director, students may substitute other Level 5 optional modules offered by the University up to a maximum of 20 credits.

MSc Applied Statistics online
MSc Applied Statistics in Health Sciences online
MSc Applied Statistics in Finance online
MSc Applied Statistics in Data Science online
Compulsory Modules for January Start, 2 or 3 year durations

All programmes listed above take all of the compulsory modules in List D plus 10 credits from List C

List D

Module Code	Module Title	Level	Credits
MM959	Foundations of Probability and Statistics	5	20
MM957	Data Analytics in R	5	20
MM971	Multivariate Analysis	5	10

MSc Applied Statistics online
Additional Compulsory Modules for January Start, 3 year

In addition to the modules in List D and the 10 credits from List C students must take

MM970	Experimental Design	5	10
MM933	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM933 which cannot be substituted).

MSc Applied Statistics online
Optional Modules for January Start, 3 year

Students for the January start 3 year version of the programme take no fewer than 50 credits from the optional modules listed above for the online MSc Applied Statistics (September Start, 3 year) excluding those previously chosen from List C.

With the approval of the Programme Director, students may substitute other Level 5 optional modules offered by the University up to a maximum of 20 credits.

MSc Applied Statistics online
Additional Compulsory Modules for January Start, 2 year

In addition to the modules in List D and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
MM970	Experimental Design	5	10
MM932	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM932 which cannot be substituted).

MSc Applied Statistics online
Optional Modules for January Start, 2 year

Students for the January start 2 year version of the programme take no fewer than 50 credits from the optional modules listed above for the online MSc Applied Statistics (September Start, 3 year) excluding those previously chosen from List C

With the approval of the Programme Director, students may substitute other Level 5 optional modules offered by the University up to a maximum of 20 credits.

MSc Applied Statistics with Data Science online
Additional Compulsory Modules for September Start, 3 year programme

In addition to the modules in List B and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
CS817	Big Data Tools and Techniques	5	10
CS818	Big Data Fundamentals	5	10
MM961	Data Dashboard with RShiny (online)	5	10
MM930	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM930 which cannot be substituted).

MSc Applied Statistics with Data Science online
Additional Compulsory Modules for September Start, 2 year programme

In addition to the modules in List B and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
CS817	Big Data Tools and Techniques	5	10
CS818	Big Data Fundamentals	5	10
MM961	Data Dashboard with RShiny (online)	5	10
MM931	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM931 which cannot be substituted).

MSc Applied Statistics with Data Science online
Additional Compulsory Modules for January start, 3 year programme

In addition to the modules in List D and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
CS817	Big Data Tools and Techniques	5	10
CS818	Big Data Fundamentals	5	10
MM961	Data Dashboard with RShiny (online)	5	10
MM933	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM933 which cannot be substituted).

MSc Applied Statistics with Data Science online
Additional Compulsory Modules for January start, 2 year programme

In addition to the modules in List D and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
CS817	Big Data Tools and Techniques	5	10
CS818	Big Data Fundamentals	5	10
MM961	Data Dashboard with RShiny (online)	5	10
MM932	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be

substituted subject to approval by the Programme Director (with the exception of MM932 which cannot be substituted).

MSc Applied Statistics with Data Science online
Optional Modules for September and January starts, 2 and 3 year programmes

Students for the 'with Data Science' version of the programme should choose no fewer than 30 credits from the optional modules listed above for the online MSc Applied Statistics (September Start, 3 year) with the exclusion of those chosen from List C and MM961, which is compulsory.

With the approval of the Programme Director, students may substitute other Level 5 optional modules offered by the University for one or more of the modules listed above up to a maximum of 20 credits.

MSc Applied Statistics in Finance online
Additional Compulsory Modules for September start, 3 year programme

In addition to the modules in List B and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
MM956	Financial Stochastic Processes (online)	5	10
MM955	Financial Econometrics (online)	5	10
MM970	Experimental Design	5	10
MM930	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM930 which cannot be substituted).

MSc Applied Statistics in Finance online
Additional compulsory Modules for September start, 2 year programme

In addition to the modules in List B and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
MM956	Financial Stochastic Processes (online)	5	10
MM955	Financial Econometrics (online)	5	10
MM970	Experimental Design	5	10
MM931	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be

substituted subject to approval by the Programme Director (with the exception of MM931 which cannot be substituted).

MSc Applied Statistics in Finance online

Additional Compulsory Modules for January start, 3 year programme

In addition to the modules in List D and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
MM956	Financial Stochastic Processes (online)	5	10
MM955	Financial Econometrics (online)	5	10
MM970	Experimental Design	5	10
MM933	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM933 which cannot be substituted).

MSc Applied Statistics in Finance online

Additional compulsory Modules for January start, 2 year programme

In addition to the modules in List D and the 10 credits from List C students must take

Module Code	Module Title	Level	Credits
MM956	Financial Stochastic Processes (online)	5	10
MM955	Financial Econometrics (online)	5	10
MM970	Experimental Design	5	10
MM932	MSc Project	5	60

In exceptional circumstances, where a student has already been awarded credit for a corresponding Strathclyde Level 4 module, a maximum of 20 credits at Level 5 may be substituted subject to approval by the Programme Director (with the exception of MM932 which cannot be substituted).

MSc Applied Statistics in Finance online

Optional Modules for September and January starts 2 and 3 year programmes

Students for the 'in Finance' version of the programme should choose no fewer than 30 credits from optional modules listed above for the online MSc Applied Statistics (September Start, 3 year) with the exclusion of those chosen from List C and MM955 and MM956 which are compulsory.

With the approval of the Programme Director, students may substitute other Level 5 optional modules offered by the University for one or more of the modules listed above up to a maximum of 20 credits.

Examination, Progress and Final Assessment

- The [General Academic Regulations - Postgraduate Taught Degree Programme Level](#) shall apply.
- The final award will be based on performance in the examinations, coursework and the project where undertaken.

Award

- Degree of MSc:** In order to qualify for the award of the degree of the MSc, a candidate must have performed to the satisfaction of the Board of Examiners and must have

accumulated no fewer than 180 credits, of which 60 must have been awarded in respect of the project (one of MM550,MM930, MM931, MM932, MM933, MM919, MM963).

8. **Postgraduate Diploma:** In order to qualify for the award of the Postgraduate Diploma, a candidate must have accumulated no fewer than 120 credits from the modules of the programme.
9. **Postgraduate Certificate:** In order to qualify for the award of the Postgraduate Certificate, a candidate must have accumulated no fewer than 60 credits from the modules of the programme.
