

Protecting your Meetings

Zoom is committed to protecting your privacy. We've designed policies and controls to safeguard the collection, use, and disclosure of your information.

The following in-meeting security capabilities are available to the meeting host:

- Secure a meeting with encryption
- Create Waiting Rooms for attendees (Recommended)
- Require host to be present before meeting starts
- Expel a participant or all participants
- Lock a meeting
- Temporary pause screen-sharing when a new window is opened

The following meeting security capabilities are enabled by default:

- Every meeting has a password
- All recordings save in the cloud
- All Microphones are muted
- All cameras are muted
- All recordings are stored in the cloud and contain video& Audio files and a transcription file.

Protecting your Data

When participating in meetings and webinars by default all communications are established using 256-bit TLS encryption and all shared content can be encrypted using AES-256 encryption.

Protecting your Privacy

Zoom only stores basic information under user account profile information:

- Email address
- User password - salted, hashed
- First name
- Last name
- Profile picture (optional to provide)

No data is shared with any 3rd party companies.

For more information about our privacy policy, visit <https://zoom.us/privacy>.

Reasonable usage policy

Zoom operates a reasonable usage policy. To learn more, please read our [Reasonable usage policy](#).

Zoom and the EU General Data Protection Regulation (GDPR)

Zoom is committed to helping our users understand the rights and obligations under the General Data Protection Regulation (GDPR), which took effect on May 25, 2018.

We have introduced tools and processes to ensure our compliance with requirements imposed by the GDPR and to help our customers comply as well.

To learn more about Zooms GDPR compliance, please read our [GDPR notice](#).
