Guide to Selecting Classes/Courses	<p>Exchange students will normally select classes/courses from levels 1 to 3. Level 1 classes are usually at an introductory level and may not require much previous knowledge or study in the subject. Level 2 and 3 classes will normally require some previous study in the subject. Level 4 classes are not usually available to exchange students unless they have significant background in the subject and meet the prerequisites for the class. It also depends on class capacity and size. (Admission to level 4 classes will normally require the permission of the individual department which offers the class).</p> <p>Exchange students usually take classes/courses amounting to 60 Strathclyde credits (30 ECTS credits) per semester. This is considered a regular full-time load. In Humanities and Social Sciences and Strathclyde Business School, this typically amounts to 3 classes worth 20 credits each.</p> <p>IMPORTANT You will receive provisional approval for the classes listed in your application prior to arrival depending on availability and if you meet the prerequisites for the class, however classes will NOT be confirmed until you arrive to take account of final changes or adjustments to Strathclyde’s provision as well as timetable clashes. It is therefore very important for applicants to be flexible and have some reserve classes in mind which can be substituted as necessary if you need to review some of your classes when you arrive.</p> <p>ERASMUS students should select classes/courses from the Strathclyde department which holds the bilateral agreement. It may be possible to take a class from another department if the other department is agreeable to this, and if it fits with your timetable. This is often simpler to arrange on arrival.</p> <p>Non-ERASMUS/International Exchange students should identify their main subject area/host department at the application stage, and take at least 50% of your classes/courses from that department/subject area. It may not be possible to seek confirmation of any secondary classes until you arrive. International Exchange students should also have lots of flexibility around classes in case you need to review them upon arrival.</p> <p>For details of available classes/courses, please refer to the Guide to Selecting classes.</p>

Accommodation/Housing Information

Incoming ERASMUS students are **not** guaranteed campus housing. This is allocated by ballot to students who apply by the deadline. You can find all of the available on campus housing options online [here](#).

When making your allocations, for single semester applications, it would be helpful if partner Universities could divide their allocations equally over both semesters to ease the pressure on housing requirements.

International Exchange/non ERASMUS students will **normally** be guaranteed campus housing provided they apply by the deadline unless there are any extenuating circumstances in which case alternative arrangements will be put in place and partner institutions will be notified.

The Housing Office will email **all** applicants in July/August (for those commencing study in S1 and December (for those commencing study in S2) with further information concerning their housing arrangements. Unsuccessful applicants will receive information about alternative housing options around the City.

Students renting privately should be aware they may require to pay council tax.
