

Student Surveys Prize Draw Terms & Conditions

Please see below for information on the Terms & Conditions for the Student Surveys Prize Draw. This applies to surveys run internally by the Student Survey Team only.

Only students registered at the University of Strathclyde are eligible to enter

To be eligible, students must be enrolled on a course which is included in the cohort for that particular survey.

One entry per student; if a student has selected "Yes" to enter the prize draw from the survey they will be entered into the draw.

Students who no longer wish to be entered in the prize draw, or who decide to enter after the survey have closed, should contact student-surveys@strath.ac.uk

One prize of an online voucher of the winner's choice will be issued. The value of the voucher will be mentioned in the survey and survey invitations. The voucher must be able to be purchased online from a retailer operating within the UK (or in Bahrain if the prize winner is a student at the University of Strathclyde, Bahrain). No cash alternative can be given.

The winner will be selected using an online random number generator on the date of the prize draw.

The prize draw will take place no later than two weeks after the survey has closed.

The winner of the prize draw will be notified by email (using their Strathclyde email address) within 7 days of the prize draw.

If the student has not responded to the email after 6 weeks, the prize draw will be revoked and another prize draw will be selected using an online random number generator.

Winners will be announced on the Strathclyde Student Surveys prizewinner webpage and on the Student Surveys social media accounts (subject to the winner's consent).

The prize draw will be administered by the Student Surveys team. Personal data will be processed in line with the University's Privacy Notice for Students.

Employees of the Student Surveys team and their direct relatives are not eligible to win the prize.
