

Young Strathclyde: Accelerate

Law Challenge

8th to 12th June 2026

Accelerate is a one-week programme, held at the University of Strathclyde, for pupils who have just gone into S5 and S6. It aims to provide a targeted focus on the pupils' chosen area of academic interest, giving them a head start on the road to their chosen career.

There are ten areas that you can choose from in 2026, depending on your career aspirations:

- **Business**
- **Chemistry**
- **Chemical Engineering**
- **Computer Science**
- **Education**
- **Electronic & Electrical Engineering**
- **Languages & International Communication**
- **Law**
- **Politics**
- **Product Design**

Teams of academic experts have put together week-long Challenges in each of these areas that will allow pupils to find out all about their area of interest and the career opportunities open to them. Led by undergraduate and postgraduate student mentors from the relevant fields, pupils will undertake a variety of group challenges, as well as attending career workshops and getting a chance to see what student life is like.

The Law Challenge: Outline

The Law Challenge has three main aims:

- To provide you with insight and information about the various academic courses and work opportunities in the field of Law.
- To allow you to discuss career and education options with a wide variety of professionals and academics while being treated as a real University student for the week.
- To allow you to take part in group challenges that will allow you to put into practice the Law expertise that you will gain during the week.

Law School staff and students will be on hand throughout the week as a source of advice and information, supporting you through your group tasks.

In groups, participants will:

- Visit a law court to watch the legal system in action;
- Prepare and enact a criminal trial, complete with prosecution and defence lawyers, witnesses, victims and the accused. This trial will take place in front of a real judge and a jury who will decide on the Accused's guilt or innocence.

By allowing you to see how Law works in the real world and to take part in your own court case, we are sure that this challenge will make you feel much more enthusiastic about Law and going on to study at University.

During the programme, our Law careers and industry event will also allow you to see the future opportunities available to you and the whole week will offer you a taste of what it is really like to be a University student.

The Law challenge has official accreditation on the SCQF Framework. This means that there will be some assessment on this challenge and, should you pass this, you will gain 10 credits at level 7. Level 7 is the same as Advanced Higher or first year University work.

What previous Law Challenge participants have said about the programme:

“The programme was an amazing immersive experience on the day to day life of a real law student, with different assignments, captivating lectures and really gives participants the opportunity to bond and work with new people in a new environment, an aspect I really enjoyed.”

“I really enjoyed this programme as I got to meet new people who had the same interests as me.”

“I believe that the Accelerate law programme has given me the chance to properly experience what it is like to be a law student and do work at university level.”

“It made me like the thought of Law much more in my future.”

“I think that the accelerate law programme was a good opportunity to learn more about law, Strathclyde university and different paths you can take in order to pursue a career in law.”
