

## Finding Your Computers IP and MAC address

### Apple Macs

#### IP Address

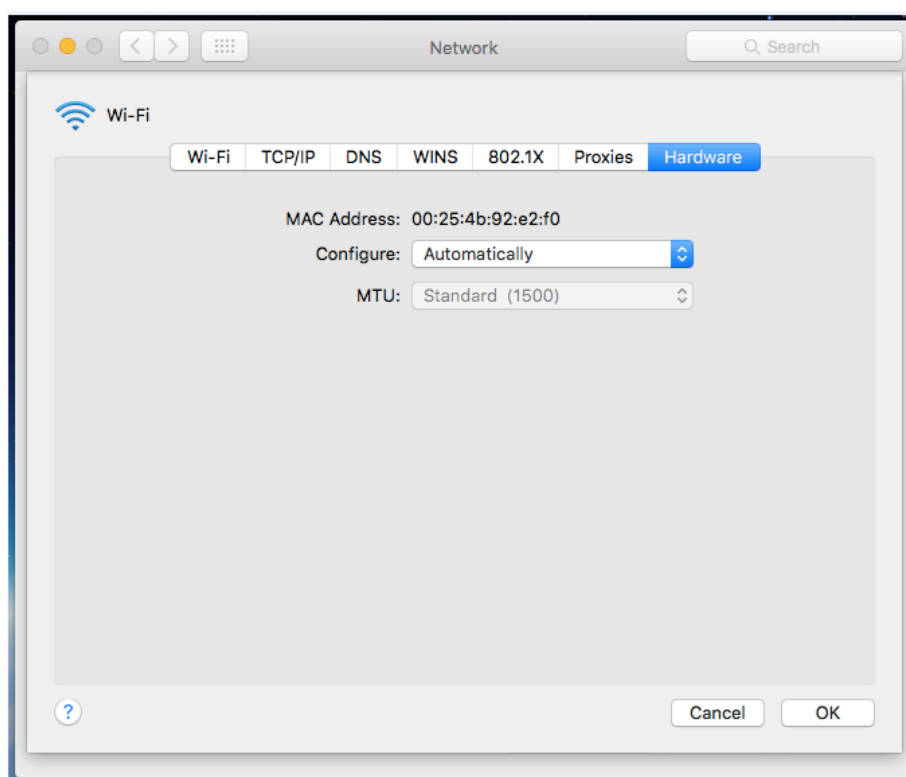

1. Select the Apple icon from your computers desktop.
2. Select System Preferences.
3. Select Network.
4. Select either Ethernet or Wi-Fi. Your IP address should display as below.

5. Your IP Address should be displayed under Status. In the above example the Wi-Fi adaptor has been selected and the IP address is showing as 130.159.133.39.

## MAC Address

1. Select the Apple icon from your computers desktop.
2. Select System Preferences.
3. Select Network.
4. Select either Ethernet or Wi-Fi.
5. Select Advanced and then Hardware. Your MAC address should be displayed as below.

6. Your MAC address should be displayed adjacent to MAC Address. In the above example the Wi-Fi adaptor has been selected and the MAC address is showing 00:25:4b:92:e2:f0.
