## SET UP STRATHCLOUD ON A MOBILE DEVICE

(e.g. iPhone, iPad, Android)
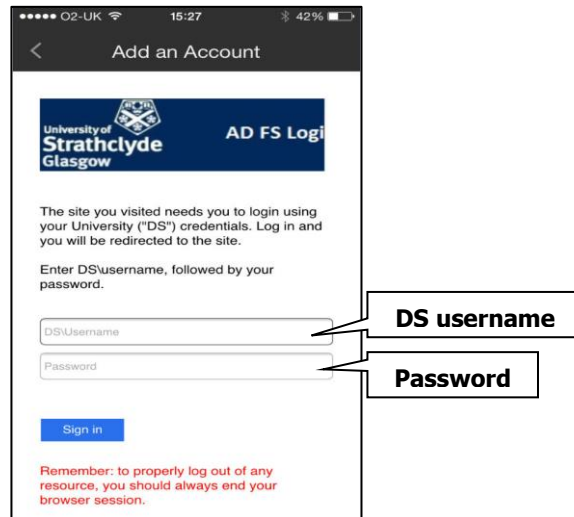

1. From the **Apple App Store,** or the **Google Play Store,** download the "**Citrix Sharefile Mobile" App.** (If you find this is not available, it may be because your version of iOS or Android is too old for the current app).

2. Install the app, following the instructions on-screen.

3. When prompted to sign in (as in the screenshot below), do **not** enter your email address and password! Instead, select **Log in with my company credentials**

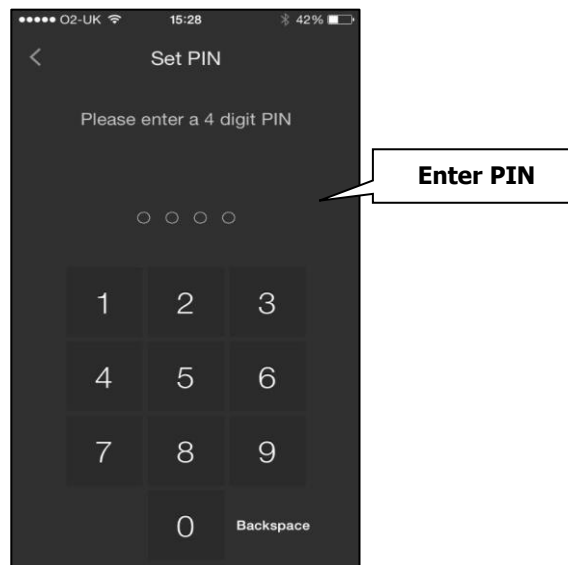

4. Enter account's subdomain as **Strathcloud** then select **Continue**

5. Enter your DS username and password

DS username

Password

6. Enter a **4 digit PIN**

Enter PIN

7. Re-enter PIN to confirm

8. Run through the initial tour, if prompted to do so.

9. If you see the screen below, then select **My Files & Folders**

My Files & Folders
