Connecting your Android device to eduroam

These instructions are for connecting your Android device to the eduroam wifi for the first time. This can be done by connecting to the StrathWiFiSetup network available in the Library and Student Residences. Once you configure your device to connect to eduroam, you will connect automatically afterwards. By configuring your device, you will not only be able to ensure your Android device connects to eduroam here at Strathclyde, but this will ensure your device will be configured to connect to eduroam on any campus you travel to.

1. Select Settings
3. Select Wi-Fi.

4. Select StrathWifiSetup.
5. Once it has connected, select it again.

6. A browser will open at wifisetup.strath.ac.uk. Select Install the eduroam CAT tool from the Play store.
7. The Play Store will open at the eduroam CAT page. Select Install.

8. Once the installation is complete, return to the browser.
Welcome to StrathWiFiSetup

Eduroam is the wireless network available throughout the University for staff and students.

Connecting securely and reliably to eduroam requires some configuration. Authentication to the network is protected using a digital certificate. There are downloadable configuration tools which will perform most of the configuration work for you on most devices.

When connected to StrathWiFiSetup you can configure your device to connect to eduroam. You can also update your device via Windows Update or the Apple Software Update if needed.

Android

To set up eduroam on your Android device please follow these three steps:

1. Install the eduroam CAT tool from the Play store.
2. Install the eduroam installer from eduroam.org.

9. Select Install the eduroam installer from eduroam.org.

10. Select Android.
11. In the drop-down box, click on Continue.

12. Once the download is complete, click on Open.

Before you proceed with installation on Android systems, please make sure that you have installed the eduroamCAT application. This application is available from Google Play, Amazon Appstore and as local download, and will use the configuration file downloaded from CAT to create all necessary settings.
13. In the pop-up box that appears, select Allow.

14. On the eduroam CAT app, select Install.
15. Select Yes.

16. Where it says Username, enter your username followed by @strath.ac.uk. For example, pkb09111@strath.ac.uk.

Where it says Password, enter your password.

Select Install.
