Set up VPN on iOS

1. Select Settings.

2. Select General.
3. Select VPN.

4. Select Add VPN Configuration.
5. In the pop-up box that appears, select Type.

6. Select IPSec.
Where it says \textit{Description}, enter \textit{Strathclyde VPN}.

Where it says \textit{Server}, enter \textit{vpn.strath.ac.uk}.

Where it says \textit{Account}, enter your username.

Where it says \textit{Password}, enter your password.

Where it says \textit{Group Name}, enter \textit{strathclyde}.

Where it says \textit{Secret}, enter \textit{johnandersoncampus}.

Select Done.

7. Select Back.
9. Where it says Status, slide the button on.
